

# When you're smiling

Roppongi Hills Residences is so much more than just a home

Residences right in the heart of Roppongi Hills means one thing – convenience

Smiling comes very easily to the residents of Roppongi Hills Residences. Awakening to meet the day in a comfortable home, and a refreshing and calming environment. A quick swim in the pool downstairs or a brisk walk with your dog along the tree-lined streets surely will bring another smile to your face. Living here is easy, living here is fun; and, most of all, living here is something to make you truly smile.

A home in this far away land must also be so much more, though. It must be a place where you can welcome visitors and family who want to see firsthand your

new surroundings, your new city – your new country. Apartments are so often selected with space for the family in mind; yet guests make for a crowd. Except for Roppongi Hills Residences, that is. You simply book the fully furnished guest apartment which functions as a guest room, and, just like that, grandparents, uncles, aunts or friends are comfortably settled in at the Roppongi Hills Residences, right with you, during their stay. Best of all, everyone – family and guests – has plenty of room to relax and interact.

And regarding entertaining? Well, if your living room doesn't comfortably hold the whole group, there is the 43rd floor

lounge – basically a furnished entertainment space of approximately 365m<sup>2</sup>. It is an elegant spot overlooking the bright lights of the city – an ideal setting to host your guests.

To comfort young mothers and people of any age with medical concerns, the onsite 24/7 bilingual general practice medical clinic exclusively for residents serves as your family doctor. Basic and emergency care are provided and, if follow-up treatment is necessary, the clinic's close relationship with the nearby hospital lets you sleep soundly, safe in the knowledge that professional help is always nearby.

While your home will be an oasis after work, there are also the weekends and holidays to consider. Mori Living encompasses so much more than just apartments. As a brand it includes a wealth of programs and events offered to encourage interaction with the local culture and in concert with the other residents from around the globe. You may take a kimono lesson or set aside an hour to learn the subtle art of Japanese calligraphy, or join more extravagant affairs such as concerts and fashion shows. Invitations are extended to residents of other Mori Living properties as well, effectively providing a diverse community right at your doorstep.

The location right in the heart of Roppongi Hills means one thing above all else – convenience. Convenience in the form of shopping for groceries is the 24-hour supermarket Food Magazine just steps away, and more than 200 other shops and restaurants – from a casual bakery to world-renowned Michelin-starred French dining, and a nine-screen cinema – all just minutes away from your front door.

Residents even enjoy their own loyalty program, enabling them to accrue points for purchases and to exchange them for everything from hotel and restaurant vouchers to Mori Helicopter Services. This program has now evolved with the "Mori Living Smiles" campaign to provide not only points, but also a wide range of tenant-only discounts, menus, and

other benefits upon presentation of your "Community Passport" member's card.

For the most special of occasions, there will always be time to visit the Roppongi Hills Club, a members-only club that residents may access as well. For those birthdays, weddings, graduations, or special anniversary celebrations – when settling for economy class simply is not enough – this first-class experience welcomes residents of Mori Living with open arms.

*As residents spend more and more time at Roppongi Hills, there seems no end to the smiles.*
