

MORI Makes City Living Easy

Serviced apartments with style at ARK Towers

If you've just arrived in Tokyo and are looking for an apartment or house, or you're only going to be in the city for a limited time, a serviced apartment (SA) can be a perfect solution for your accommodation needs. And when it comes to SAs, you can't beat MORI LIVING. With four central locations around the city, MORI LIVING's SAs offer a winning combination of convenience, luxury, and privacy.

Recently, Tokyo American Club members Per Knudsen—who chairs the Club's Human Resources Committee—and his wife Anne Bille spent a weekend at a MORI LIVING ARK Towers SA, and they loved it. The first thing that stood out for them was the convenient location: the apartments are right in the ARK Hills complex, and very close to the Club, making it easy for members to keep up with all of the activities at the Club.

Knudsen and Bille found the English-speaking staff at the reception desk to be extremely helpful. Once they got to their apartment, they were pleasantly surprised with its clean, modern layout. After relaxing and making use

of the apartment's speedy internet service, the couple dined at one of the American-style eateries in the ARK Hills complex.

The next morning, they dropped in at a farmer's market in the ARK Hills patio. Later in the day, they treated themselves with a trip to the building's spa, where they each got some pampering in the form of a body massage and a facial. Bille said, "The experience was luxurious. I thought it was beautiful."

They were also impressed by the other features of the spa and fitness area, which include a 20-meter swimming pool, Jacuzzi, and gym. "The dressing rooms and the showers were very nice. It was very clean, and they had very good equipment, and anything else we might have needed, like hair brushes and moisturizing cream," Bille said. "The spa is very high end," Knudsen added.

The spa cafe was another plus: the menu featured a wide range of tasty and healthy dishes, as well as a good selection of beer, wine, and spirits. They both agreed that the cafe, which

is staffed by friendly English speakers, would also make a perfect place for quick, informal meetings.

After dinner at a sushi restaurant in ARK Hills, they went back to their room to relax and watch TV. The next morning, they ordered a delicious brunch from room service, which was prepared at the building's spa cafe. They followed their meal with a visit to an antique market that was held at the ARK Hills patio and a stroll around the area. Then they went to a concert at Suntory Hall, which is only five minutes away from the apartments. After the matinee, they had an early dinner at a Spanish restaurant in the ARK Hills complex.

Thoroughly pleased with their weekend, the couple agreed that MORI LIVING ARK Towers offered the ideal SA experience.
